LET RUGBY ARCHITECTURAL BUILDING PRODUCTS BE AN EXTENSION OF YOUR BUSINESS!

LET RUGBY
ARCHITECTURAL
BUILDING
PRODUCTS
ASSIST YOU
IN ALL PHASES OF
PRODUCTION

Leave all the panel lay-up, cut to size,
edgebanding, drilling and line boring to us.

**GREAT TIME
AND MONEY SAVER!**

LET US QUOTE YOUR NEXT JOB
AND SEE HOW TO ENHANCE
YOUR PRODUCTION WITHOUT
ADDING OVERHEAD

CALL US AT 855-650-3265

IT'S AS EASY AS 1, 2, 3

PICK YOUR PANELS

LAY UP PANELS:

PIONITE or any laminate brand, finish,
and grade available.

Or, if you prefer wood veneers of any
species, any brand and engineered
veneers, too. Simply indicate the
face and back required for your
balanced panel.

We will produce to your specification
the thickness and size. Choose which
substrate, ie MDF, MDF ultra light,
plywood, marine grade plywood,
multi-core, particle board, etc. and
we will do the rest..Promptly and
accurately!

CHOOSE YOUR CUT

CUT TO SIZE PROGRAM:

Simply provide the final
specifications (including
edgebanding if required),
the direction, horizontal/vertical
grain where applicable) and
WE WILL DO THE REST.

Add production capacity without
additional overhead to you!

HAVE IT DELIVERED

EFFICIENT DELIVERY:

Your final components will be
delivered conveniently marked,
sorted and shrink wrapped
for your easy final assembly
and installation.

Founded in 1957, Columbia Forest Products is
North America's largest manufacturer of hardwood
plywood and hardwood veneer products.
Columbia's decorative interior veneers and
panels are used in high-end cabinetry, fine
furniture, architectural millwork and
commercial fixtures.

- Species: Various
- Face grades: A,B,C,D,E
- Back grades: 1,2,3,4
- Sizes: 4x6, 4x7, 4x8, 4x10, 5x8, 8x4
- Thickness: 1/8" to 1-1/4"
- Core types: JayCore®, KayCore®, veneer core,
particleboard core (PBC), medium density
fibercore (MDF), combination core, Classic
Core®, lumber core
- PureBond Hardwood Plywood:
Cost-effective formaldehyde-free panels that
offer improved moisture resistance compared to
composite panels made with UF
- UV Capabilities

Most Domestic and Many Exotic Species Available

**Premium Hardwood
Sheet Veneer & Edgebanding**

Veneer Technologies, Inc. manufactures high end decorative hardwood veneer faces. They carry most domestic species and have access to many exotic species from around the world. They currently operate ten continuous cross feed splicers, producing approximately 6.5 million finished square feet of face veneer per month.

SHEET VENEER

Manufactured with a select grade face veneer crosslinked to a variety of backers. Backers include 10 mil, 20 mil, 2-ply with cross-grain back, 3M peel-n-stick, polyback, true phenolic. Sizes are 4' x 8', 4' x 10', 4' x 12'. Custom sizes available.

WOOD EDGEBOARDING

- Standard wood edgebanding
- 500' rolls, fleeced and sanded
- 250' rolls, preglued EVA hotmelt
- 3M peel-n-stick
- UV prefinished, preglued or fleece backed
- Widths 1/2" to 2"
- Custom widths and lengths available

THICK WOOD EDGE ROLLS

- 328' rolls. Thickness 1mm, 1.5mm, 2mm, and 3mm

Please inquire about available widths and species

arauco

For more than half a century, ARAUCO has been driven forward by its vision of being a global leader in the development of sustainable forest products. ARAUCO manufactures a broad line of composite panels made in North America from 100% recovered and/or recycled wood fiber. It imports additional composite panels and plywood from South America, made with wood sourced from the company's own sustainably managed plantation forests. No native forest wood or genetically modified trees are used to produce any ARAUCO product.

OF AMERICA

BHK knows that selecting a drawer manufacturer is a major decision. You want to make sure you get the quality your project demands, the price that affords you a profit and the service you deserve. BHK of America has manufactured quality drawer systems for more than 30 years and has built its success on service, value and superior craftsmanship.

To maximize the functionality of your drawer space BHK offers multiple storage and convenience options. In order to build the highest quality wood drawers, you have to start with the finest quality materials. For that, BHK select from the most beautiful domestic species including Maple, Tilia, Cherry and Red Oak.

- Tilia bottom thickness -1/4", Bottom Thickness for Maple, Cherry & Red Oak is 3/8"
- Custom Heights Ranging from 1 1/2" to 15"
- English Dovetail Construction
- 3/8" Bottoms made from VC Plywood
- Durable Clear Satin Finish is Standard (Unfinished or staining available upon request)
- Standard Eased Top Edge (Straight top edge available upon request)
- Front Drilling
- White Vinyl Wrapped
- Baltic Birch

StyleLite®

The Ultimate High Gloss and Matte Panel System

- Manufactured using state-of-the-art equipment and the finest materials, StyleLite possesses an optical grade surface of the highest quality compared to all other traditional categories of high gloss panels
- StyleLite's deep, mirror-like gloss surface contains none of the obvious orange peeling, imperfections or telegraphing inherent in inferior high gloss panel types such as melamines, laminates, thermofoils (vinyl wraps) and most painted panels
- StyleLite is generally repairable if lightly or moderately scratched saving time, money and inconvenience

BALTIC BIRCH®

HARDWOOD PLYWOOD

Excellent Raw Material Resource

Baltic Birch is offered from both non certified and FSC® certified forests. Russia contains more than a fifth of the world's forests, making for an abundant supply of raw material.

100% Hardwood Fiber

Made from 100% Birch hardwood veneers and nearly void free components, this material offers exceptional hardness and specific gravity, making Baltic Birch plywood amongst the strongest and most dimensionally stable panels available.

Multi-ply Construction

The construction of BALTIC BIRCH plywood has 30% more plies than conventional domestic plywood. The combined results of the Birch hardwood fiber and the multi-ply construction make for a panel that is specially designed to endure heavy loads or high impact. Baltic Birch is also available in unidirectional construction from 9mm-30mm thick.

- Direct importer – more choices and better quality control
- Production quality supervised by Hardwoods employees in Russia
- 3.0mm through 25.0mm
- 5' x 5', 4' x 8', 10' x 4' and 8' x 4' cross grain
- Grades: B/BB, BB/BB, BB/CP
- NAUF, CARB 2, exterior and clear finished
- Custom sizes and grades available
- Laminating blanks
- FSC® options available

Roseburg

A Forest Products Company

Roseburg offers the most technically diverse line of medium density fiberboard (MDF) products in North America. From moisture resistant to flame retardant to no-added formaldehyde (NAF), Roseburg has an MDF panel to suit your every need.

Medex® MDF

Medex® is a sustainable, moisture resistant, medium density fiberboard (MDF) panel utilizing a synthetic resin system and pre-consumer recycled wood fiber. Medex® is engineered for interior high moisture areas in non-structural applications and is used in place of sanded plywood or solid wood. With the versatility of a superior composite wood panel and the enhancement of indoor air quality, Medex® has been specified in hundreds of commercial, institutional and conservator projects since the 1980s. Manufactured in Medford, OR.

/ OPEN /

Brochure

Medite® MDF

Medite® is the foundation of the Roseburg MDF product line and offers a smooth hard surface, exceptional machining, plus clean, sharp edges for cutting and drilling applications. Medite® is a competitive workhorse representing uniformity in MDF and highly suitable for precision part manufacturing.

Uniboard's TFL palette offers over 130 colours in 14 finishes offering superior quality, service and cutting edge technology.

Uniboard® TFL features the latest in trends, making this premium collection easily ahead of the pack. Perfect for retail, residential and institutional applications.

Uniboard Particleboard: First quality ingredients that make the difference

Uniboard uses top-quality wood fibers bonded with a proprietary resin formulation developed and produced at our Unires facility in Val-d'Or, Quebec or by our external supply partners, specific for our processes. Its smooth, dense and non-porous surface makes it ideal for laminating and machining. Easy to cut, Uniboard particleboard gives a clean result without chipping: a significant advantage that optimizes production time and minimizes waste.

Uniboard® particleboard is the perfect choice in all market segments in both residential and commercial applications.

Leaflet

Our products meet or surpass the level of performance our clients demand, and comply with the regulations of each market. They also outstand due to their stability, dimensional uniformity and high aesthetic and visual appearance.

Lightness, easy to machine and perfect finish are the three essentials of any Garnica product. Our product range comprises seven families of plywood products, which are not just plywood, all are developed to meet specific market needs, such as resistance, performance, durability and, of course, beauty.

Garnica is committed to promoting plantations and to progressively abandon the use of tropical timber. All our products are sourced from sustainable woods plantations.

- All our plywood panels are particularly noted for their exceptional properties: lightweight, quality surfaces, easy-to-machine and easy-to-transport.
- **Efficiency Poplar available:** Lightweight panel composed entirely of European sustainable plantation poplar
- **Ultralight Poplar available:** Ultralight sandwich panel with an insulating XPS (extruded polystyrene) core combined with plywood that is made of 100% European poplar from sustainable plantations
- **Offering Pluma-Ply HDF:** Ultra smooth poplar core veneers covered with thin layers of HDF for exceptional surface quality, machining and laminating results
