OUR CUSTOM PANEL LAYUPS ARE UNPARALLELED

ASK US ABOUT IT TODAY

Along with our extensive selection of stock hardwood plywood panels, Rugby can work with you to create specialty panels that meet any project's needs. Whether it is an exotic species of veneer, or a specific cut of veneer, we can work with our partner mills to create what your project needs. Our mills have extensive resources to create beautiful flitch matched panels, on a variety of cores, and in a number of sizes.

We work with large commercial projects, but we can all handle small specialized orders, sometimes as small as one piece! Our custom panel program can fulfill the needs of most any venture, including environmentally sensitive requirements including FSC certification and LEED® certified projects. Rugby has some of the tightest turnaround times in the industry for custom panels. We look forward to working closely with you on your next architectural panel project!

Wilsonart®

Wilsonart Engineered Surfaces is a world leading manufacturing and distribution organization that is driven by a mission to create innovative, high performance surfaces people love, with world-class service our customers can count on, delivered by people all over the world who care.

With hundreds of kitchen countertop designs and bathroom vanity surfaces to choose from, including woodgrains, abstracts and solids, you're certain to find the perfect solution for all of your project needs. Wilsonart laminate countertop designs are available with a number of premium finish options, too. From traditional matte and glossy finishes to abstract textures, you can create a custom look for every surface.

Wilsonart's enhanced antimicrobial protection is built into the laminate to protect the surface against damaging microbes. Antimicrobial agents protect the surface against growth of mold and mildew that cause stains and odors when used for countertops and work surfaces.

SOLICOR™

Wilsonart® SOLICOR™ is a specialty laminate created with a solid color core that lets you design visually crisp and stunning spaces by eliminating the disruptive brown line at the edges.
